

Feasability Report

Anthony Chow - DES 157B

Planned Features

- Infinitely scrolling list/mosaic of responses
- Interactive card elements that expand to reveal more information
- Form to add response to database

Technologies Needed

- Typewriter JS
- Auto Scroll (Vanilla JS)
- Animate on Scroll JS
- MasonryJS
- Back4App

Skill Assessment

I think I should be mostly okay working with the library, although I have not yet experimented with MasonryJS and implementing it with AOS. I do believe that these libraries are often paired together though so I don't think I will have trouble finding help if I run into trouble.
